BOARD OF SUPERVISORS IN SESSION

The Board of Supervisors met in regular session Monday, October 16.

An application for county aid was received from Mrs. Mary White, aged 55 of Daly City, who is suffering from paralysis. On motion of Casey, who stated that he had given the woman temporary aid, seconded by Brown, Mrs. White was granted aid in the sum of $8 a month.

Mrs. Bessie Jackson, aged 21, of Redwood City, in delicate health, also petitioned for county aid, and on motion of MacBain, seconded by Brown, was allowed $8 per month.

State aid for a half-orphan child in San Mateo was granted on motion of Brown, seconded by Casey.

Miss Anne Bell Bailey, county librarian, submitted a report showing expenditures for the month of September of $201.48. The report was ordered filed.

A communication was received from Miss Bailey recommending the discontinuance of the branch of the San Mateo county library at the County Farm and Hospital on account of the lack of the use of books. The recommendation of the librarian was accepted and the branch was ordered discontinued on motion of MacBain seconded by Casey.

A petition signed by Arthur Belanger and other citizens of Colma Lighting District was received asking for the installation of an extra light at the corner of Clark and Valley streets in the Garden Valley Homestead. The petition was granted on motion of Casey seconded by Brown.

A communication was received from W. G. Stewart of Farallone asking the board to take some action to provide a roadway to his house from the new boulevard constructed at that place. At the present time, the writer states he and his family are cut off entirely from the highway by a steep embankment. The communication was ordered filed with the understanding that the members of the board would investigate the matter upon their next visit to the coastside.

A resolution forming the districts as surveyed by County Engineer J. V. Neuman and also showing the intention to do the work, was adopted on motion of Casey seconded by MacBain.

A resolution accepting an offer from the Pacific Gas & Electric Company to substitute 100-candle power Mazda tungsten incandescent lamps for the 80-candle power lights in the Menlo Park Highway Lighting District without any additional cost to the county was adopted on motion of MacBain seconded by Casey.

Supervisor Brown addressed the board in reference to the drainage across the new state highway and the old road at the Belmont railroad station. He stated that he had taken the matter up with Surveyor Neuman and the State Highway Engineer and it had been found that 300 feet of pipe would be required to carry the water across the entire space including the track. The highway commission agreed to defray one-half of the expense if the county would stand the other half. This the board agreed to do on motion of Brown seconded by MacBain.

The bid of H. B. Morey & Sons of Menlo Park amounting to $3931 for constructing the retaining walls on the Woodside road was accepted on motion of MacBain seconded by Thompson. The bid of Morey & Sons was about $500 less than the bid of William Monk which had been rejected at a previous meeting of the board on account of being far in excess of the engineer's estimate.

H. C. Finkler, secretary of the State Supreme Court in San Francisco and the owner of a valuable estate in the Canyada district west of Redwood City, addressed the board and made an appeal for protection against lawless quail hunters who had encroached on his property. He stated that he had been insulted and abused and his life threatened when he atempted to put the hunters off his place. He called attention to the danger of the destruction of the oaks on account of the killing off of quail and other birds which feed on the insects that infest the trees. Finkler suggested the formation of a restricted district for the protection of the birds.

The board while desirous of affording Finkler the protection he desired, was not quite sure as to its right to form the restricted district as suggested, so referred the matter to the district attorney to secure his legal opinion in the matter.

Supervisor MacBain addressed the board in reference to the flood waters coming down from the Polhemus tract through the Stern place at Atherton. He asked that the county surveyor be instructed to look into the matter and see what can be done to remedy the situation. This order was made, on motion of Thompson seconded by Brown.

District Attorney Swart presented and read an ordinance regulating traffic over the mountain highways of the county and prescribing the weight of vehicle and load allowed to be hauled over the same. The ordinance restricts the total weight to six tons over the following highways:

That portion of the Colma to Halfmoon Bay road from the town of Colma to a point between the First and Fourth Townships.

All the county highways in the Fourth and Fifth Townships.

That portion of the Belmont to Halfmoon Bay road between Reid's school to the Crystal Springs Lakes. The ordinance was adopted on motion of Casey seconded by Thompson.

On motion of Thompson seconded by Brown the supervisor of the Fifth Township was authorized to open the mouth of the Pescadero creek at a cost of $50 the money for the same to be taken out of the general fund.

On motion of Brown, seconded by MacBain the supervisor of the Fifth Township was permitted to purchase 80 feet of 12-inch culvert pipe for use in his district.

Supervisor MacBain addressed the board and stated that he had secured figures for surfacing the concrete base on Valparaiso avenue in his district and found that he could have the work done at the rate of 01.6 per square foot. There being 108,828 sq. feet in the road the total cost would be $1741. MacBain was instructed to have the work done on motion of Brown seconded by Thompson, all the members voting "yes."

Surveyor Neuman reported that he had investigated the matter of the crossing and the floating oil at Visitacion which had been referred to him. The Southern Pacific Company had located the crossing and did not need any further action. In regard to the oil about which there had been considerable complaint from residents of the neighborhoood he had found that it had come from an old pipe of the Pacific Gas and Electric Company which had been recently removed. Manager Florence of the Pacific Gas & Electric Company who was present at the meeting, stated that he would take up the matter and make an investigation so as to be able to report at the next meeting.

TRUE INWARDNESS OF THE VERA CRUZ INCIDENT.

In the spring of 1914, occurred the capture of Vera Cruz. Men from one of our ships had been arrested at Tampico and had been discharged with an apology. But our admiral demanded a salute, which was refused. Thereupon the president went to congress, asking authority to use the armed forces of the United States. Without waiting for the passage of the resolution, Vera Cruz was seized. It appeared that a shipload of ammunition for Huerta was about to enter that port. There was a natural opposition to this invasion and a battle occurred in which nineteen Americans and over a hundred Mexicans were killed. This, of course, was war. Our dead soldiers were praised for dying like heroes in a war of service. Later, we retired from Vera Cruz, giving up this noble warfare. We had not obtained the salute which was demanded. We had not obtained reparation for affronts. The ship with ammunition which could not land at Vera Cruz had soon landed at another port, and its cargo was delivered to Huerta without interference. Recently the naked truth was admitted by a cabinet officer. We are now informed that "we did not go to Vera Cruz to force Huerta to salute the flag." We are told that we went there "to show Mexico that we were in earnest in our demand that Huerta must go." That is, we seized Vera Cruz to depose Huerta. The question of the salute was a mere pretext.—From Mr. Hughes' Speech of Acceptance.

President Wilson appears to have been keenly alive to the expediency of accepting several invitations to make speeches in the West. Nobody knows any better than he that it will take considerable shoveling to fill up the holes that have been dug in that locality by Justice Hughes.

HUGHES' LABOR RECORD.

When Mr. Gompers, remembering only that he is a Democrat and forgetting that he is a leader of organized labor, ventured to assert that Mr. Hughes is unfriendly to labor because he concurred in the unanimous decision in the Danbury hatters' case, he ventured on very thin ice. The Chicago Tribune promptly reminds him that an honest judge must apply the law as he thinks it is, not as he thinks it ought to be, and asks him to tell those who look to him for political advice something about the record of Mr. Hughes as governor. Read what the Legislative Labor News, the official organ of the New York Federation of Labor, said editorially when Mr. Hughes left the governor's chair at Albany for his place on the supreme court. Here it is:

"Now that Governor Hughes has retired from politics and ascended to a place on the highest judicial tribunal in the world, the fact can be acknowledged without hurting anybody's political corns that he was the greatest friend of labor laws that ever occupied the governor's chair at Albany. During his two terms he has signed fifty-six labor laws, including among them the best labor laws ever enacted in this or any state.

"He also urged the enactment of labor laws in his messages to the legislature, even going so far as to place the demand for a labor law in one of his messages to an extra session of the legislature.

"Only 162 labor laws have been enacted in this state since its erection in 1777—in 133 years. One-third of these exceeding in quality all of the others have been enacted and signed during Governor Hughes' term of three years and nine months."

Let organized labor take to heart what the Chicago Tribune says on this point: "Mr. Hughes is no demagogue and no visionary. He is a man of courage and conscience, and if labor cannot confide its cause to his rock bottom Americanism there is something wrong with its cause."—Boston Herald.

THE GREATEST OF READJUSTERS

[From the New York Evening Post.]

We do not see why there should have been any stir in the senate over the discovery that President Wilson has completely reversed himself in the matter of the proposed child labor law. Senator Borah was able to show that Mr. Wilson described this legislation in his "Constitutional Government" as unconstitutional and "obviously absurd extravagance," carrying the congressional power to regulate commerce beyond the "utmost boundaries of reasonable and honest inference," and making it possible, if sustained, for congress to legislate over "every particular of the industrial organization and action of the country." That, we must confess, has also been the Evening Post's view. But the Evening Post and Senator Borah are old fogies, dating back to the time when it was the custom to have fixed beliefs and principles and stick to them.

The senator has evidently not read Mr. Wilson's letter in explaining his change of front on the tariff commission—that it is only a narrow man whose mind is stupidly closed to new ideas, who does not alter his opinions. By this test Mr. Wilson is obviously one of the broadest minded men this country has ever produced, for he has changed his mind to date on the initiative, referendum, recall, woman suffrage, the tariff commission, tariffs for revenue only, a permanent diplomatic service beyond politics, the merit system in the civil service, the proper place of Tammany Hall in the scheme of the universe, child labor legislation, preparedness, Bryan, a continental army—but why continue? It is a long enough list to prove that Mr. Wilson's political views are not fossilized by any fear of inconsistency.

Editorial Comment.

Bryan butts, Wilson tuts.

Watchful waiting maketh woeful wanting.

Candidate Hughes doesn't talk like a tut-tutter.

Hughes is hammering and the Democrats are yammering.

The Wilson Administration stands for taxes, and more taxes.

The Hughes trail will be cold by the time the Democrats strike it.

As a party leader, would it be fair to refer to J. Ham Lewis as J. "Pork" Lewis?

Can the folks on the Democratic band wagon continue to play by the president's notes?

REPUBLICAN PARTY SURE TO WIN

Registration Figures Tabulated On Vote of State Indicate Republican Victory

Complete registration figures reported by various registrars and county clerks throughout the state show that a Republican victory in November is mathematically certain.

In the larger counties, Los Angeles, San Francisco and Alameda, the Republicans lead the Democrats by three to one. The Democratic party by these figures is proved to be a minority party.

That this great voting strength will be behind the party nominees is certain. By no system of calculations or estimates can the Democrats base a claim of success or hope at the polls.

In Los Angeles, the total registration on October 7 ran to 355,520. This was divided as follows: Republicans, 159,236; Democrats, 52,182; not stated, 97,996; Progressives, 11,211; Socialists, 10,488; Prohibitionists, 14,409.

So it may be seen that in Los Angeles the Republican registration is a little more than three times that of the Democrat. It is conceded even by the Democrats that more than one-half of the failed-to-state vote will go to the Republican nominees and that the majority of the registered Progressives will vote for Hughes and Johnson.

San Francisco Figures

The same story is true of San Francisco. The division along party lines is about the same. The total registration for the November election is 184,819. These are divided by parties: Republicans, 105,467; Democrats, 38,161; Socialists, 3,748; Progressives, 4,252; declined to state, 32,138; Union Labor, 386; Prohibitionists, 666; Socialist Labor, 1.

Again it will be noted that the Republican registration in this city and county is nearly three to one against the Democrats, with a just claim for the Republican nominees that they will carry more than one-half of the Progressive and failure-to-state voters.

In Alameda county, approximately 125,000 voters registered and, as everybody knows, Alameda county is overwhelmingly Republican.

Governor Johnson's wonderful popularity is a guarantee of success for the whole ticket. When he was nominated by the Republican party for United States senator the state became safely for Hughes.

California on the figures shown is nearly three to one for the Republican nominees.

HUGHES, JOHNSON AND HAYES

A Proven Trio of Candidates Slated for Victory

The Times-Gazette endorses every word contained in the following able editorial which recently appeared in the Salinas Index:

"There never was a national campaign in the history of this country at which so much is at stake. Never before have the issues of the day been so widely discussed, either by the press or on the platform. The policies of the Republican and Democratic parties should be familiar to the reading public, and there is no excuse for anyone being at a loss to know where the nominees of the respective parties stand.

"A reunited Republican party appeals for the suffrage of the citizens of California for the national nominees, Hughes and Fairbanks, on the issue of protection and preparedness, both military and industrial. There is every assurance that this appeal will not be made in vain.

"It is not enough to elect men to the electoral college who will vote for Hughes and Fairbanks. It is imperative that the Republican nominees for United States senator and members of congress be also elected. For the first-named office the choice of the Republican party, as expressed at the primary election, is Governor Hiram W. Johnson, the man who carried all before him, inside an outside the party. However much men have differed with him on his personal policies, no one has breathed a word against his character as a public man or private citizen. His ability is recognized and his honesty is above suspicion. In this campaign personal animosities should be relegated to the scrap heap and Governor Johnson should receive the earnest support of the Republicans of the state.

"For congressman from this district the Republicans exercised good judgment in renominating E. A. Hayes, a man whose faithful and efficient service in the house of representatives for many years has been a benefit to the state and nation. Mr. Hayes is too well known to the people of this district to need an introduction here. He is entrenched in their confidence and his election should be by a larger majority than ever.

"The Republican party is particularly fortunate in its platform and candidates this year, and there is no reason why the members of the party should not give both their hearty support."

The state treasurer shall give notice of the time and place of sale by publication in two newspapers published in the city and county of San Francisco and in one newspaper published in the city of Oakland, and in one newspaper published in the city of Los Angeles and in one newspaper published in the city of Sacramento once a week for four weeks next preceding the date fixed for such sale. In addition to the notice last above provided for, the state treasurer may give such further notice as he may deem advisable, but the expenses and cost of such additional notice shall not exceed the sum of five hundred dollars for each sale so advertised.

There is hereby created in and for the state treasury a fund to be known and designated as the "Second State Highway Fund," and immediately after such sale of bonds the treasurer of the state shall pay into the state treasury and cause to be placed in said second state highway fund the total amount received for said bonds, except such amount as may have been paid as accrued interest thereon. The amount that shall have been paid at such sale as accrued interest on the bonds sold shall be by the treasurer of the state, immediately after such sale, paid into the treasury of the state and placed in the "Second State Highway Interest and Sinking Fund," which is hereby created.

Of the moneys placed in the said second state highway fund, pursuant to the provisions of this section, the sum of twelve million dollars, or so much thereof as may be necessary, is hereby made available, and shall be used exclusively for the acquisition of rights of way for and the acquisition, construction and improvement of the uncompleted portions of the system of state highways prescribed by said "State Highways Act." And of said moneys so placed in said second state highway fund, the sum of three million dollars, or so much thereof as may be necessary, is hereby made available and shall be used exclusively for the acquisition of rights of way for, and the acquisition, construction and improvement of certain extensions from said system of state highways prescribed by said "State Highways Act" as follows: An extension connecting the interior and coast trunk lines in northern California through Trinity and Humboldt counties by the most direct and practical route; an extension connecting the San Joaquin valley trunk line at a point between the city of Merced in Merced county, and the city of Madera, in Madera county, with the coast trunk line at or near the city of Gilroy in Santa Clara county, through Pacheco pass, by the most direct and practical route; an extension of the Mariposa county state highway lateral to or near the railway station El Portal, in Mariposa county; an extension connecting the San Joaquin valley trunk line in Tulare county with the coast trunk line in Monterey county, by the continuation of the lateral between the cities of Visalia and Hanford through Coalinga by the most direct and practical route; an extension connecting the San Joaquin valley trunk line at or near Bakersfield with the coast trunk line in San Luis Obispo county, through Cholame pass, by the most direct and practical route; an extension of the San Bernardino county state highway lateral to Barstow, in San Bernardino county, by the most direct and practical route; an extension connecting Antelope valley, in the county of Los Angeles, with the city of Los Angeles, by the most direct and practical route; and an extension of the San Bernardino county state highway lateral to the Arizona state line near the town of Yuma, Arizona, via the cities of Brawley and El Centro in Imperial county, by the most direct and practical route; provided, however, that expenses of the acquisition, construction and improvement of the extensions above enumerated and the acquisition of rights of way therefor, shall be partly borne by the county or counties in which such extensions lie, the extent and character of such division of expenses between the state and county shall rest for final determination with the state department of engineering and said department is hereby authorized to enter into such agreements and undertakings as are necessary to properly carry out the intent of this section.

The route or routes of said state highways to be acquired, constructed or improved under the provisions of this act shall be selected by the department of engineering in the manner provided by and to carry out the objects of said "State Highways Act" and in the manner provided by and to carry out the objects of this act.

Moneys shall be drawn from said second state highway fund for the purposes of this act upon warrants duly drawn by the controller of the state upon demands made by the department of engineering and allowed and audited by the state board of control; provided, however, that out of the proceeds of the first sale of bonds made hereunder the state controller and the state treasurer shall transfer upon their respective books the sum of one hundred thousand dollars to the credit of the "State Highway Revolving Fund," which fund is hereby created in the state treasury. The moneys in said state highway revolving fund, or such part thereof as the advisory board of the department of engineering shall deem necessary, may be expended, from time to time, upon the demands of the department of engineering, approved by the state board of control, for the purpose of making cash payments in advance for such expenditures as are necessary and proper to carry out the provisions of this act. Upon receipt of such demands, so approved, it shall be the duty of the state controller to draw his warrant upon said "State Highway Revolving Fund" in favor of the person or persons therein named, and the state treasurer shall pay the same. On or before the tenth day of each month thereafter, the department of engineering shall submit to the state board of control a verified itemized statement, showing all expenditures during the preceding calendar month of the moneys so withdrawn from said "State Highway Revolving Fund," accompanied by proper vouchers and receipts therefor. Such statements shall be audited by the state board of control in the same manner that claims against the state are audited, and, if found to be correct, shall be approved by the state board of control and transmitted to the state controller with such approval endorsed thereon. The state controller shall thereupon draw his warrant upon the "Second State Highway Fund" in favor of the department of engineering for the aggregate amount of such expenditures, and upon the surrender of such warrant properly endorsed, the state treasurer shall transfer the amount thereof upon the books of his office from the said "Second State Highway Fund" to the said "State Highway Revolving Fund," to be expended as aforesaid.

Sec. 5. There is hereby appropriated from the general fund in the state treasury such sum annually as will be necessary to pay the principal and the interest on the bonds issued and sold pursuant to the provisions of this act, as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

The treasurer of the state shall, on the first day of January, 1918, and on the first day of each July and the first day of each January thereafter transfer from the general fund of the state treasury to the "Second State Highway Interest and Sinking Fund" such an amount of the money by this act appropriated as shall be required to pay the interest on the bonds theretofore sold, until the interest on all of said bonds so sold shall have been paid or shall have become due in accordance with the provisions of this act.

There is hereby created in the state treasury a fund to be known and designated as the "Second State Highway Sinking Fund." The treasurer of the state shall on the first day of July of the year 1923, and on the first day of July, of each, and every year thereafter in which a parcel of the bonds sold pursuant to the provisions of this act shall become due, transfer from the general fund of the state treasury to the said second state highway sinking fund such an amount of the moneys appropriated by this act as may be required to pay the principal of the bonds so becoming due and payable in such years.

Sec. 6. The principal of all of said bonds sold shall be paid at the time same becomes due, from the second state highway sinking fund, and the interest on all bonds sold shall be paid at the time said interest becomes due, from the second state highway interest and sinking fund. Both principal and interest shall be so paid upon warrants duly drawn by the controller of the state upon demands audited by the state board of control, and the faith of the State of California is hereby pledged for the payment of the principal of said bonds so sold, and the interest accruing thereon.

Sec. 7. The state controller and state treasurer shall keep full and particular account and record of all their proceedings under this act and they shall transmit to the governor in triplicate an abstract of all such proceedings thereunder with an annual report in triplicate, one copy of each to be by the governor, laid before each house of the legislature biennially. All books and papers pertaining to the matter provided for in this act shall, at all times, be open to the inspection of any party interested, or the governor, or the attorney general, or a committee of either branch of the legislature or a joint committee of both or any citizen of the state.

Sec. 8. The highway constructed or acquired under the provisions of this act shall be permanent in character and be finished with oil or macadam or a combination of both, or of such other material as in the judgment of the said department of engineering shall be most suitable and best adopted to the particular locality transversed. The state department of engineering, in the name of the people of the State of California, may purchase, or receive by donation or dedication from counties, or from public or private persons, or it may lease, any right of way, rock quarry or land necessary or proper for the construction, use, improvement or maintenance of said state highway and shall proceed, if necessary, to condemn under the provisions of the Code of Civil Procedure relating to such proceedings any necessary or proper right of way, rock quarry or land. The department of engineering in accordance with law shall have power and authority to purchase, sell, exchange, lease or otherwise acquire or dispose of all supplies, stock material, machinery and implements and do all other things necessary or proper in the construction, improvement or maintenance of said state highway. The department of engineering in accordance with law shall have power and authority to purchase, lease, or erect plants for manufacture of cement, crushed rock and other materials used in road or highway work, and also the power to dispose of said plants when no longer required for such purposes. With the exception of those public highways which have been permanently improved under county or permanent road division bond issues within nine years prior to the adoption of this act, all public highways within this state lying within the right of way of said state highway as determined and adopted by the department of engineering shall be and the same shall become a part of the right of way of said state highway, without compensation being paid therefor; provided, nothing herein contained shall require the state to maintain any highway along or on said right of way, prior to the completion or acquisition of the permanent improvements contemplated by this act. Whenever any money received from the sale of bonds under the provisions of this act, shall be expended in any county in this state, such county must pay into the state treasury such sum each year as shall equal the interest, at the rate of four and one-half per cent per annum, upon the entire sum of money expended from the proceeds of the bonds issued under this act within such county in the construction of said state highway, less such proportion of said amount expended as the bonds matured under the provisions of this act shall bear to the total number of bonds sold and outstanding; provided, however, that in all cases where, by reason of physical difficulties to be overcome, or other good and sufficient cause, the state department of engineering shall determine that the cost of construction of any portion of such state highway in any county, or counties, is so great as to entail an unjust and inequitable burden upon any such county, or counties, in refunding to the state the sums so paid for interest upon the bonds sold and the proceeds thereof applied as aforesaid, such county, or counties, shall not be required to refund the whole amount of such interest, but only such portion thereof as the state department of engineering shall adjudge to be fair and reasonable. All highways constructed or acquired under the provisions of this act shall be permanently maintained and controlled by the State of California.

Sec. 9. This act, if adopted by the people, shall take effect on the thirty-first day of December, 1916, as to all its provisions except those relating to, and necessary for, its submission to the people and for returning, canvassing and proclaiming the votes, and as to said excepted provisions this act shall take effect ninety days after the final adjournament of the present session of the legislature.

Sec. 10. This act shall be submitted to the people of the State of California for their ratification at the next general election to be holden in the month of November, nineteen hundred and sixteen, and all ballots at such election shall have printed thereon the words "For the State Highway Act of 1915" and such other designation as may be necessary to properly identify this act. In a square immediately below the square containing said words there shall be printed on said ballot the words "Against the State Highway Act of 1915." Opposite the words "For the State Highway Act of 1915" and "Against the State Highway Act of 1915," there shall be left spaces in which the voters may make or stamp a cross to indicate whether they vote for or against this act, and those voting for said act shall do so by placing a cross opposite the words "For the State Highway Act of 1915" and those voting against said act shall do so by placing a cross opposite the words "Against the State Highway Act of 1915." The governor of this state shall include the submission of this act to the people as aforesaid, in his proclamation calling for said general election.

Sec. 11. The votes cast for or against this act shall be counted, returned and canvassed and declared in the same manner and subject to the same rules as votes cast for state officers, and if it appears that said act shall have received a majority of all the votes cast for and against it at such election, as aforesaid, then the same shall have effect as hereinbefore provided and shall be irrepealable until the principal and interest of the liabilities herein created shall be paid and discharged, and the governor shall make proclamation thereof. But if a majority of the votes cast, as aforesaid, are against this act then the same shall be and become void.

Sec. 12. It shall be the duty of the secretary of state to have this act published in at least one newspaper in each county, or city and county, if one be published therein, throughout this state, for three months next preceding the general election to be holden in the month of November, A. D. nineteen hundred and sixteen; the cost of publication shall be paid out of the general fund, on controller's warrants duly drawn for the purpose.

Sec. 13. This act shall be known and cited as the "State Highways Act of 1915."

Sec. 14. All acts and parts of acts in conflict with the provisions of this act are hereby repealed.

I also proclaim, in pursuance of the provisions of section 3 of Chapter 414, Statutes of 1915, that at said election there will be submitted to the vote of the electors the following act of the legislature amending section 8 of the State Highways Act of 1909, approved by the electors of the State at the general election held in November, 1910:

The department of engineering in accordance with law shall have power and authority to purchase, sell, exchange, lease or otherwise acquire or dispose of all supplies, stock material, machinery and implements and do all other things necessary or proper in the construction, improvement or maintenance of said state highway. Whenever any money received from the sale of bonds under the provisions of this act, shall be expended in any county in this state, such county must pay into the state treasury such sum each year as shall equal the interest, at the rate of four and one-half per cent per annum, upon the entire sum of money expended from the proceeds of the bonds issued under this act within such county in the construction of said state highway, less such portion of said amount expended as the bonds matured under the provisions of this act shall bear to the total number of bonds sold and outstanding; provided, however, that in all cases where, by reason of physical difficulties to be overcome, or other good and sufficient cause, the state department of engineering shall determine that the cost of construction of any portion of such state highway in any county, or counties, is so great as to entail an unjust and inequitable burden upon any such county, or counties, in refunding to the state the sums so paid for interest upon the bonds sold and the proceeds thereof applied as aforesaid, such county, or counties, shall not be required to refund the whole amount of such interest, but only such portion thereof as the state department of engineering shall adjudge to be fair and reasonable. All highways constructed or acquired under the provisions of this act shall be permanently maintained and controlled by the State of California.

Sec. 2. THE WEEK'S EVENTS IN LOCAL CIRCLES

Redwood City as Seen Through Incidents Gathered Here and There

Mrs. N. T. Smith of San Carlos who has been visiting her old New Hampshire home since last May is expected home early next week.

Yesterday Mrs. Charles E. Knight purchased a five passenger Ford touring car from D. Flynn the local agent. She is a skilled knight of the wheel but never violates the speed laws.

Milton Marcus the enterprising shoe dealer will receive a large consignment of Regal shoes from the East on Monday. The shoes find a ready sale everywhere and are only handled for sale by prominent shoe dealers.

Frank Costa of Santa Cruz, who was arrested at Halfmoon Bay on September 18 by Game Warden Burke for having more than fifteen abalones in his possession contrary to the county game laws, was fined $10 by Judge Seely on Thursday.

The Menlo Park Horticultural Society will hold its annual fall flower show in Forester's hall in this city on October 27, 28 and 29. The display of blooms will ercel any former exhibit by the society. A rare collection of chrysanthemums from the various growers will be the feature of the show.

George E. Seely and Joseph A. Roza have formed a real estate company to be known as the Sequoia Realty Company of Redwood City. The firm is prepared to do a general real estate business, make loans, and do a general insurance business. Both are energetic men and will make a splendid team to hustle for business.

The Forty Hours Devotion will begin at the last mass in Mt. Carmel church tomorrow and continue for three days. On Sunday evening Father Cavanaugh of San Mateo will preach the sermon and on Monday evening Father Ryan of Menlo Park will preach. Both young men are eloquent pulpit orators. Every one should hear them. The pastor, Father Sullivan, urges all his parishioners to attend these devotions.

John W. Classen and Elizabeth B. Hanson, executor and executrix of the estate of William H. Hanson, deceased, have petitioned the superior court for an order to sell 47 acres of land at La Honda belonging to the estate. The property is appraised at $4,500. This is the last piece of land of the vast holdings that Chas. Hanson bought in early days for the giant redwood trees that grew upon it, which he cut down and manufactured into lumber.

Guy P. Hull returned from the East last Wednesday after an absence of six weeks. He had a most delightful trip seeing many wonders in his long travels. Everywhere in the East he saw evidences of prosperity and happiness among the workingmen. Everyone is employed at a good wage. Mr. Hull, from his close observations believes that Chas. E. Hughes will be elected president on November 7. Mr. Hull did not enjoy the cold snap in New York, he longed for sunny California and is glad to get back.

LITTLE JUANITA THE BELOVED

The Story of an Unusual Child Of Eventful History and Revered Memory

The following narrative appeared in the last issue of the Knights of Columbus Bulletin, written by Jas. T. O'Keefe, its editor.

On the southerly bank of the San Francisquito creek and not far from Stanford University is a lonely grave, marked with a little stone cross, around which lingers the memories of the days of long ago. But few are now living who remember the story of the once beautiful maiden who sleeps beneath this cross.

At the close of the Santa Clara Mission many of the Neophytes, through fear, sought the fastness of the mountains while others took up the occupations of civilized life. Among those who pursued the latter was a family by the name of Gonzales. They located on a large tract of land near the San Francisquito creek, which now comprises the vast Stanford estate.

The happiness and spiritual guide of the family centered around the eldest child, a girl of eighteen years. They had christened her "Juanita." She was born at the Mission and grew up in that happy and pious environment, an accomplished, comely and religious girl. When the clouds of sorrow gathered around the unfortunate Santa Clara Mission, where her people had been happy, Juanita directed her Indian parents to go forth and find a new home and not yield to discouragement. They moved to the farm just below where Stanford University now stands. Her piety did not grow dim by the hardships of the new life. She gathered around her many of her people and taught them that beyond the grave there was a longer, better and brighter life. In the evening she recited the rosary in their midst and on Sabbath mornings she galloped off with the country side to Mass at Santa Clara.

Juanita was an artist at the guitar, and soon became the idol of the valley. Admirers came from afar to worship at her shrine, but she remained contented among her friends.

It will be remembered that the San Francisco Mission was the last to close. When the affairs of the Mission were settled (or rather confiscated for plunder) many from all sections visited the closing scenes.

Juanita had come with her friends to aid, counsel and assuage the sorrow of those she loved. On her return a number accompanied her. On the way down the El Camino Real a great storm arose and the rains fell in torrents and upon reaching the creek not far away from her home all forded the stream. She was the last to cross over, and midway in the creek her horse stumbled and she was thrown beneath. Before her companions reached her the gentle life of Juanita had fled. The body was recovered, and firmly clutched in her right hand was found the rosary beads.

Great was the sorrow of her beloved people, stricken but not dispirited, they bowed in humble submission to the will of God. The adobe home of the Gonzales family was the scene of mourning and prayer. A little grave was dug on the bank of the San Francisquito (named by the Padres as "Little St. Francis",) and with tender hands and devotion the remains of Juanita were laid to rest. The good Padres came from Santa Clara to pronounce the final benediction, and some loving hand placed above her head a little stone cross, the emblem of man's redemption. The death of this Indian maiden seemed to strengthen the faith of the country side. Her teachings, example and devotion had its effect, and many of the decendants of these families have become prominent in the history of California. A number of them went to Southern California and built up that great country.

Many years have since passed, seasons have come and gone, the stream still murmurs by the grave, the birds continue their sweetest songs, but the little stone corss to this day stands as a sentinel over the grave of Juanita whose life was gentle, whose womanhood was as pure as driven snow, and thus we may truthfully say that the noble work of the Padres of early California was not in vain.

The editor in childhood played near the lonely grave and knows its story well. Along about 1876 Senator Stanford acquired those vast possessions. One day while traveling along the creek he noticed the stone cross and when told of the story he notified the superintendent not to disturb the grave, but to improve it and likewise to preserve the falling walls of the adobe buildings near by, which were once the home of the decendants of the Mission Indians. The Senator was a broad guaged man and loved the early history of California, its Missions and its traditions, and thus the grave of Juanita will ever be preserved, and while the story of her life may be forgotten the little stone cross may lead to inquiry and perhaps unfold some of the beautiful life of the Indian maiden who sleeps on the bank of the Little St. Francis.

SAN MATEO COUNTY GOES REPUBLICAN

Test Vote Counted Shows Hughes Leads Wilson for President By Safe Majority

San Mateo county will cast a solid vote for Charles E. Hughes for the presidency. By an accurate card system the Times-Gazette has been able to secure data going to show that San Mateo county will give Hughes a two to one vote over President Wilson. The data has been carefully compiled and there can be no mistake but that Mr. Hughes will carry the county by an overwhelming vote. It is safe to predict that he will get two votes to every one received by his opponent. Here is the straw vote secured in every town of the county:

Daly City, Hughes, 75; Wilson, 50.
South San Francisco, Hughes, 80; Wilson, 40.
San Bruno, Hughes, 50; Wilson, 55.
Easton, Hughes, 40; Wilson, 20.
Burlingame, Hughes, 150; Wilson, 70.
Hillsborough, Hughes, 40; Wilson, 18.
San Mateo, Hughes, 250; Wilson, 117.
Belmont, Hughes, 38; Wilson, 20.
San Carlos, Hughes, 15; Wilson, 10.
Redwood City, Hughes, 300; Wilson, 175.
Fair Oaks, Hughes, 15, Wilson, 3.
Menlo Park, Hughes, 135; Wilson, 73.
Woodside, Hughes, 48; Wilson 13.
Portola, Hughes, 11; Wilson, 4.
Halfmoon Bay, Hughes, 65; Wilson, 38.
Pescadero, Hughes, 49; Wilson, 8.
La Honda, Hughes, 11; Wilson, 4.
San Gregorio, Hughes, 15; Wilson, 6.
Moss Beach, Hughes, 8; Wilson, 7.
Visitacion, Hughes, 8; Wilson, 9.
San Pedro, Hughes, 16; Wilson, 20.
Colma, Hughes, 123; Wilson, 125.

These figures make a total of 1542 votes for Mr. Hughes and 885 for President Wilson. This is a very conservative estimate. It is certain that the Hughes vote will be over two to one. Those in a position to know assert that Charles E. Hughes will carry the state by over 50,000. Put thes figures under your hat and look at them on November 8 ,and ascertain how near we are to the true figures.

TAXES NOW DUE AND PAYABLE

County Tax Collector A. McSweeney reports that he has received the assessment rolls for the fiscal year 1916, and the total amount of taxes to be collected is $956,036.00, against $828,346.00 last year, an increase in the collections of $127,690.00. The total number of assessments for the fiscal year are 30,134, an increase of 2017 over the fiscal year 1915.

Taxes are payable October 16th, and the first installment becomes delinquent on December 4th—the first Monday in December—after which time 15 per cent will be added to the first installment.

Taxpayers are requested not to wait until the last week to pay their taxes, in order to avoid delay in receiving their properly receipted bills before delinquent.

TOWN TRUSTEES MEETING

Monday evening the Menlo Park Horticultural Society was granted permission to display a banner across Main street near Forester's Hall for their fall flower show to be held in Forester's Hall in this city, October 27, 28 and 29.

The finance committee rendered a report on the claims of E. J. Finlay, former city engineer, which they were busy on for several weeks. In the report a recommendation was made that a number of his claims be allowed and others allowed in part, the balance having been previously paid the engineer. The report was received and filed for further consideration.

Trustee Merrill lead in a discussion of the weed nuisance on the streets and especially in some of the parks were lots are held by absentee owners. A plan was devised whereby the weeds will be cut off the streets by the street department by action of the board and weeds on lots will be declared a nuisance by an ordinance which the city attorney was instructed to prepare and have before the board at its next meeting.

Notice of appeal from Blanchard Brown Company to the board for a clearing to eliminate a number of technicalities from the street improvement bond issue against the property on East Brewster avenue from Arguello street to El Camino Real was received and October 23 set as the day of hearing. The company has recently completed the street work on that portion of East Brewster and has taken this action to guard investors in their bonds. The matter is purely a legal one.

The building will be at the rear of the Library and the High School, with a frontage on Washington street. The plans call for a two-story plastered building in classical order and will be a striking feature in the group of school buildings.

The building will be 118 feet long by 50 feet wide, accommodating on the first floor two spacious stairways, office, locker-room, storeroom and finishing-rooms, wood-working and machine shops, with ample space for future ironworking shop.

The second floor accomodates two large drafting rooms, arts and crafts, blue-printing and storeroom, a department of domestic science with large kitchen, pass-pantry and storerooms, dining-rooom and sewing room.

VOTE FOR EKSWARD 'THE MAN YOU KNOW'

There are a great number of phases to a political battle that has its conclusion at the polls. The citizenry in American life desires to enthuse over a candidate. There are times that this spirit of enthusiasm is unable to manifest itself or to gain strength because there is absolutely no reason why encouragement should be given to candidates who had never shown the least interest in public affairs until they sought public office.

That the voters eagerly flock to the support of a candidate who has actually accomplished something for the community in general is readily exemplified in the case of Frank L. Eksward, the nominee for the Assembly.

As secretary of the San Mateo County Development Association, as a director of the Tourist Association, as a member of other civic bodies, Eksward's work for the public good stands out prominently.

Realizing his worth as a citizen, whom they know knows public situations, voters from every section of San Mateo county are rallying to his support as they deem Eksward has done. Therefore, he enthuses about Eksward as a member of the next Legislature.

Everywhere Eksward is greeted with this kind of enthusiasm: "I am for you, Eksward. I know what you have done. Your work entitles you to the vote of every public spirited citizen."

Eksward is proving himself to be a whirl-wind candidate in the closing weeks of his campaign.

PARK LAND RE-CONVEYED

Judge Buck on Thursday signed a decree ordering the city of Hillsborough to reconvey to the Burlingame Land and Water company three parcels of land in Burlingame Park which were deeded to the city six years ago for public park purposes. The city has never used the property for the purpose for which it was deeded, and the original owners now want to sell it to the Pacific Telephone and Telegraph company as the site for the new telephone exchange. The city trustees of Hillsborough only a few months ago passed a resolution closing up Floribunda park, a portion of the land which will now be reconveyed. The proceedings in court Thursday were transacted in record time. The suit of the land company asking for a reconveyance was filed at 10 o'clock, and by 10:30 the order of the court had been issued ,the suit being a friendly one between the parties. Judge E. F. Fitzpatrick appeared for the land company and City Attorney A. H. Redington for Hillsborough.

The season has been propititious so that the best display of the society will be made this year. The chrysanthemum exhibit is to be the finest ever seen in the State.

A resolution was accepted by the Supervisors at their last meeting accepting an offer from the Pacific Gas and Electric Company to substitute 100-candle power Mazda incandescent lamps for the 80-candle power lights in the Menlo Park lighting district without additional charge to the district. This improvement of the lighting service is much appreciated by the people of Menlo Park.

The ladies of the parlor have provided attractive prizes for the winners. Some queer costumes will be seen on the floor during the evening. Spectators will get their money's worth by attending. A costumer will be in attendance at the hall this afternoon. Come early and get your costume.

Supervisor John MacBain has a large number of men and teams engaged in rocking Cooley avenue running from the San Francisquito creek to the Bay road at the old Crow place. He is also macadamizing the Bay road from that point to the bay. The creek road from the Pope street bridge to Cooley avenue is also being rocked. The work is much needed and Mr. MacBain is taking advantage of the dry weather to complete the improvements on these thoroughfares.

Registration of voters closed last Saturday. Menlo Park has made a large gain in votes. The total registration for the four Menlo precincts is 748. Precinct number one had a registration at the primary election in August of 169 and for the general election the registration is 195; precinct number two registered 303 for the primary and 337 for the general election; preiccnt number three, known as the Ravenswoood precinct, registered 55 for the primary and 75 for the general election, and Fair Oaks precinct registered 118 at the primary election and 141 at the general election. The increase in votes shows that this community is growing rapidly.

Henry Miller the millionaire and cattle baron who died in San Francisco last Saturday was for years one of the prominent men of the State. He often visited his daughter, Mrs. J. Leroy Nickel, here and was well-known and liked everywhere. Those who knew him best loved him most. Coming to California as a young man from his home in Germany having neither capital nor friends he accumulated a large fortune by thrift and energy. Every young man could profit by learning the life story of Henry Miller. He learned how to do things and did them. He was a student of nature and of men. He knew men as he knew his vast herds. His estate is variously estimated at from twenty to three hundred million dollars. The latter figure is perhaps a little high but when it is considered that his vast domain was greater in extent than twice the size of Belgium it must be admitted that it is hard to estimate his wealth.

IMPORTANT WORK NOW IN HAND

The Chamber of Commerce had a representative attendance Tuesday evening.

F. H. Drake acted as chairman, president Landscheit being absent.

Routine matters were quickly disposed of.

The Fagdl motor car system was reported in good shape. The Redwood Transit Company will conduct the business and it was planned to order cars very soon. Some were in favor of sending in the order at once but that was not considered necessary, the delay of a few days more or less not being of material importance.

The matter of handling inquiries for the location of industrial enterprises received considerable well merited attention. Among other things Mr. Chilcott said that an "industrial map" showing all suitable acreage holdings would soon be completed and should be on view at the Chamber of Commerce headquarters.

Town Trustee George A. Merrill made a strong plea for a worthy scheme of lighting from the County road down Broadway and along Main street. A committee will be appointed to take the mater up in connection with the city officials.

There were several communications relating to the Dumbarton bridge proposition, indicating the deep and general interest felt in this matter.

On Monday evening there will be a special meeting of the Chamber of Commerce for open discussion of, and formulation of a plan to be presented relating to the Dumbarton project, this meeting to be preliminary to an eventful meeting to be held on Wednesday evening to forward the selection of a site for a new bridge to cross the bay.

At the Wednesday evening meeting a strong plea will be made that the new structure, a vehicular bridge, be built at or near Dumbarton point. The meeting will be a very important one, judging from the class of men who will be present to take part in the discussion.

Stanford university, the State Engineer's office and several of the bay counties will be represented by experts.

NEW CHURCH FUND GROWING

The Congregational church building committee held an important meeting last evening and reported some $14,000 had been raised among their members. This being evidence that sufficient money would be raised, the committee was authorized to ask for competitive plans for the new church building which seems to be needed by the growing church.

Later a full list of the names of subscribers together with the amount subscribed by each will be published, thus giving to the community the names of those who were responsible for the erection of the new church building.

DUTY OF THE ADMINISTRATION TO STOP PLOTS AND CONSPIRACIES.

We denounce all plots and conspiracies in the interest of any foreign nation. Utterly intolerable is the use of our soil for alien intrigues. Every American must unreservedly condemn them and support every effort for their suppression. But here also prompt, vigorous and adequate measures on the part of the administration were needed. There should have been no hesitation, no notion that it was wise and politic to delay. Such an abuse of our territory demanded immediate and thoroughgoing action. As soon as the administration had notice of plots and conspiracies it was its duty to stop them. It was not lacking in resources. Its responsibility for their continuance cannot be escaped by the condemnation of others.—From Mr. Hughes' Speech of Acceptance.

Having discovered that the Democrats don't like what he is saying, Mr. Hughes doubtless is convinced that he is on the right track.

A bond issue by the Wilson administration is merely Uncle Sam's note, and the best thing Woodrow Wilson does is to write notes.

Mr. McCormick follows the same method in claiming credit for legislation as he does in his predictions. He includes several acts of the Taft administration.

The Democratic press is convinced that it is the duty of Mr. Hughes to say something that will hurt his chance of being elected.

President Wilson in his acceptance speech may reply to Mr. Hughes' charges, but he will not answer them. That is an entirely different matter.

A messenger of President Wilson found out that Colorado women were for the administration. No messenger, of course, can be blamed for making good.

It is reported from Washington that the administration will ignore most of Mr. Hughes' charges. That is very much the easiest way for it to answer them.

President Wilson will not make any speaking dates, we are told, but only separate engagements for addresses, considering a "speaking tour" undignified. "Too proud to fight."

Tammany Leader Charles F. Murphy announces that he will retire after the campaign. It is believed that many other more or less distinguished Democrats will follow his example.

Governor Hughes announces in one of his speeches that he is a constructionist. But we are willing to admit that so far as Democratic policies are concerned he is a destructionist.

President Wilson will be notified of the Democratic nomination at Shadow Lawn. This seems a most appropriate place for letting him know that he will shortly have to give up his place in the sun.

Grover Cleveland was the last Democratic president. He was also the last president to issue bonds to secure money to defray the running expenses of the government. But Wilson will tie him in this.

"Eminent judges," says Colonel Henry Watterson, "have ever proved disappointing candidates." He is right. Alton B. Parker was a big disappointment to the Democrats. And so is Charles Evans Hughes.—Toledo Blade

SAFE and PLEASANT way to enjoy the good roads and shady byways of San Mateo and Santa Clara Counties. The orchard panorama—the lakes—the mountain crest—all bid you come again and again.

MACBAIN is reelected so we are going to have more good roads.

Such tobacco enjoyment

as you never thought could be is *yours to command* quick as you buy some Prince Albert and fire-up a pipe or a home-made cigarette!

Prince Albert gives you every tobacco satisfaction your smoke-appetite ever hankered for. That's because it's made by a patented process that *cuts out* bite and parch! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

On the reverse side of this tidy red tin you will read: "Process Patented July 30th, 1907," which has made *three* men smoke pipes where *one* smoked before!

PRINCE ALBERT

the national joy smoke

has a flavor as different as it is delightful. *You never tasted the like of it!* And that isn't strange, either.

Buy Prince Albert everywhere tobacco is sold in toppy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and—that corking fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such clever trim—always!

Men who *think* they can't smoke a pipe or roll a cigarette *can smoke* and *will smoke* if they use Prince Albert. And smokers who have not yet given P. A. a try-out certainly have a big surprise and a lot of enjoyment coming their way as soon as they invest in a supply. Prince Albert tobacco will tell its own story!
